WOOD PELLETS 10KG

 €2.95

Brites are a locally available fuel that will reduce carbon emissions to the atmosphere and help combat climate change. Brites are very clean & can be handled easily without any mess. Brites burn evenly & efficiently giving a constant heat. The only material in the pellets is natural wood-there are no additives or artificial binding agents.

EVOLUTION ENERGY SAVING PIR FLOODLIGHT

RRP €49.99

€35.00

The first floodlight to be endorsed by the Energy Saving Trust.

- Comes supplied with a 100W linear tungsten halogen lamp and a 9W PL-S Pro Compact fluorescent lamp.

- Consumes 70% less energy than a standard 500W floodlight. Brings significant savings in lower running costs and is designed to minimise light pollution. Added security with an optional all night ambient light.

- Silver finish. Rust proof die cast aluminium construction. Size:(HxWxProj) 225x210x215mm.

RECHARGABLE CLULITER CLASSIC TORCH

SAVE €5.00!

Was €43.95
NOW €38.95

2KW OIL FILLED RADIATOR

€36.95

70W SODIUM FLOOD C/W BULB

€35.00

This model boasts an ideal combination of power and lightness.

Precision cutting and comfort are ensured by the one-piece grip/tank unit, isolated from the engine by 5 anti-vibration elements. The automatic starter and primer also ensures easy starting in all conditions. Maintenance operations are greatly simplified thanks to the filter/spark-plug cover that can be opened without the need for tools.

EFCO CHAINSAW 51cc 18" Bar

€399.00

ELECTRIC BLANKETS

from €14.95

OWL ELECTRICITY MONITOR

€49.95

- Reduce carbon emissions • Reduce electricity costs • Save precious fossil fuels
- Displays electricity use on a portable easy to read LCD display. Currency display for £, € & \$
- Separate displays for greenhouse gas emissions, KWh, temperature & time
- Saves money by identifying simple & efficient energy saving practices. Will assist in energy conservation & sustaining the environment
- Real time, real cost. Can identify how much it costs to operate individual electrical appliances
- Identifies whether appliances have been left on inadvertently. Easy to read, easy to use.
- Simple to fit . Does NOT need to be plugged into a 13amp socket. Single, twin or 3 phase monitoring, up to 200 amps per phase.
- Battery operated, batteries included. Power adaptor available
